

## PROFILE

I am a full-stack developer specialized in .Net technologies.

I graduate 2 Masters in France specialized in IT related to the management of IT projects and artificial intelligence. I started my career in the industrial environment, insurance, and banking systems.

During the past 5 years, I have been working in England on web project various types of web projects: small to large scale. I know a variety of technologies and I am not scared to learn new frameworks.

I am looking for a new challenge and an opportunity to use my skills and discover new technologies on the web or not.
